Personal Profile

I am a highly motivated, ambitious and career driven individual with excellent communication skills developed throughout my career to date. With a background in transportation and logistics, I have gained a passion for web development and have recently completed a Full-stack Engineer course on Codecademy and continue develop my skills in Front-end Web Development Bootcamp.

I am a quick learner and keen to utilise my skills and experience, while continue learning. I am now fully focussed on securing full-time employment as a Developer and available for an immediate start. Here is a link to my GitHub: <https://github.com/AstaRem>

I am passionate about continuous learning and professional growth, therefore I am keen to learn languages and frameworks needed for the job. I am ambitious and career driven.
